

Does your business depend on your computer running perfectly?

- ☛ Are you sure you have done all you can to prevent an attack by spyware, viruses and hackers?
- ☛ Are you sure you have an adequate and robust backing-up regime?
- ☛ Are you sure your computer is running efficiently and effectively?

I specialise in helping clients identify and deal with computer issues before they become stressful problems. I can help you by -

- ✓ **Advising you on protection against threats from spyware, viruses and intrusions** – to ensure your computer and sensitive data is not compromised
- ✓ **Advising you on backing-up measures** – to ensure you have an alternative resource should individual files or your hard disk drive becomes unusable
- ✓ **Helping you take simple ‘housekeeping’ measures** – to ensure your computer is working as fast as possible
- ✓ **Giving your computer a regular ‘health-check’** – to identify and remedy any developing issues before they become stressful problems
- ✓ **Providing a computer support facility** – either by telephone or a visit as appropriate

Some thoughts you may like to consider!

It is likely that something bad will happen at a most inconvenient or embarrassing time.

Stress can be reduced if we are prepared for the likelihood that something bad will happen.

Failure to plan is a plan for failure!

Please call to chat about how I can help you.

If you don't call now, please keep this. You may need it later!
