Objectives

To help clients use their computers efficiently and effectively.

Computer Solutions offers (on-site and by telephone) practical advice on a wide range of preventive maintenance measures which, together, ensure that hardware and software is run optimally. This includes -

Ensuring that threat prevention (spyware, virus and intrusion) is adequate to protect a computer interruption;

Ensuring that backing-up regime is adequate to provide a sufficient resource from which to restore a computer with a minimum of interruption to business;

Undertaking health checks to identify and deal with issues which may affect the efficiency of the computer, or cause a disruptive incident;
